Upcoming FREE Virtual Writing Workshop

The virtual workshops offered by EducationUSA Hungary provide an overview of the tests and writing components required for admissions. The workshop leader is a native speaker of English who has advised and taught college writing and now teaches university-level courses in Hungary. She will be available to provide assistance and feedback during the upcoming Writing Workshop, in which participants will learn strategies for resume and essay writing. Participants will also receive a pack of online resources for test-taking, vocabulary-building and application strategies to continue their study at home.

Writing Workshop

April 8, Thursday 15:30

Vaccine requirements to attend U.S. universities and colleges?

Rutgers University, in New Jersey, is the first U.S. university to announce that students would need to be fully vaccinated against the coronavirus to be allowed to return to campus in the fall. According to the university, students may file for an exemption for medical or religious reasons. Those attending fully online or off-campus programs will also be exempt.

Rutgers is the first institution to make this decision, however it likely will not be the last. We will continue sharing important information regarding COVID-19 restrictions and vaccination requirements in U.S. universities.

You can read more about Rutgers' new requirement [here](#).

Application Advice Corner

All about Community Colleges in the U.S.

First Lady Dr. Jill Biden has always said that community colleges are “one of America’s best-kept secrets.” As a lifelong educator and community college instructor, Dr. Biden knows first-hand the tremendous opportunities and incredible value that U.S. community colleges have to offer international students.

Community colleges are primarily public higher education institutions that strive to provide affordable and accessible educational opportunities to all. Community colleges can award two-year associate degrees, as well as certificates and job training. Most community colleges are commuter schools and do not have housing for students. Many students begin their postsecondary studies at community colleges before transferring to a four-year institution to pursue a bachelor's degree.

So, are there benefits to attending a community college? Absolutely! Small class sizes, affordability, expanded online offerings, and faculty focused on teaching are among the many benefits of attending a community college. Learn more [here](#).

*Did you know...*that more than 86,000 international students attended community colleges during the 2018-2019 school [year](#)? This represents about 8% of all international student enrollment. Community colleges tend to be considerably cheaper than four-year colleges and universities. Commencing studies at a community college to then transfer to four-year colleges and universities can in some cases cut costs by half for international students.

You can research U.S. community colleges by visiting individual community college websites and the AACC website, [among other resources](#).
