### CV + Writing Webinars

**Are you looking to complete a master's degree in a STEM field? Check out the Master's Scholarship at Rensselaer Polytechnic Institute!**

Rensselaer Polytechnic Institute offers a merit-based scholarship up to 40% of tuition to eligible admitted applicants. Applicants will automatically be considered for this scholarship with the submission of their master's application. No additional documents are required. The scholarship is for in-person, full-time study only.

U.S. Embassy Budapest  
is now accepting  
applications for  
the Benjamin Franklin  
Transatlantic Fellows  
Summer Institute, a 4-  
week summer program  
in the United States for  
16-18-year-old high  
school students.

This intensive exchange program fosters awareness of shared values between young Europeans and Americans, and enables teenagers to explore such themes as youth engagement, support for democracy and civil society, and economic prosperity. Click the button below to learn more details about the program and the eligibility requirements. [The application deadline is February 15th.](#)

Let this 6-week American experience bring you inspiration that will energize you and add excitement to your classroom!

Curious to learn more?

**Yes, I'm Interested in the Fulbright TEA!**

## COLLEGE CORNER

Learn about different colleges  
and universities in the US!

**Are you a high school student thinking about college, and perhaps a career in engineering, medicine, or business? The University of Rochester's Pre-College Programs allows students to explore different career paths and majors, live on a university campus, and challenge themselves.**

Their summer programs give students the freedom to experience Rochester's unique curriculum and join others from around the world. Pre-College Programs not only give students a taste of the college experience, but they also introduce them to unique perspectives, cultures, and ways of thinking about the world.

At the University of Rochester, students pursue only what they're interested in. With Rochester's Pre-College Programs, high school students get that same freedom. For over twenty-five years, these programs have welcomed students from around the globe to explore the University and its resources to broaden their educational experience, sharpen academic skills, and help them learn more about who—not just what—they want to be.

**As the start of the Spring semester approaches, make sure that you start classes with your "best foot forward"!**

We know that it can be overwhelming trying to figure out how to stay on top of all of your classes and assignments. Luckily, there are many free resources and guides online that can help you become a stronger and more confident student! We recommend starting with websites like Georgetown University's [Academic Resource Center](#) or UPenn's [Weingarten Center](#).

Not a fan of these specific resources? No problem - this is just one example; you can Google terms like "university study resources" to find others you might like better!
