EducationUSA Hungary NewsL: Issue 5/2019

So Many Opportunities in STEM!

Interested in the STEM (Science, Technology, Engineering, and Mathematics) fields? The STEM market is growing more rapidly than any other job market, and the United States has a multitude of valuable STEM programs. Check out information on a few in our featured article this month!

Pittsburg State University is offering an amazing opportunity for those students who are interested in Materials Science. The Master of Science in Materials Science is an interdisciplinary STEM program involving Chemistry, Physics and Engineering Technology. Research areas include: Material Science, Nanotechnology, Thin Films, Polymers, Metallurgy, Materials Chemistry, Electronics and Electrical, Composites, Computational, Mechanics. Students will have an opportunity for: Teaching and Research Assistantships (tuition waivers), stipends, summer fellowships, internships, and research work in the renowned Kansas Polymer Research Center. MS in Materials Science program details: <https://academics.pittstate.edu/academic-programs/physics/materials-science-masters-degree.html>

Considering pursuing studies in STEM as a Fulbright scholar? Great news! We have partnerships with the University of Houston and Purdue University specifically in the STEM areas.

The University of Houston is the leading public research university in the fourth-largest city in the U.S. Through the Fulbright partnership, Hungarian Fulbright students receive complete tuition coverage for the first academic year. For more information on UH, go [here](#).

Purdue University, with the 8th ranked Engineering program in the entire U.S., offers postgraduate STEM programs through a Fulbright partnership. With the partnership, Fulbright scholars receive complete tuition coverage for the first academic year, with opportunities for tuition coverage during the second year. For more information, go [here](#).

Upcoming Workshops

Prepare for the college application process by improving your test-taking and writing skills with one of EducationUSA's upcoming workshops:

News and Resources

Study at a Women's College

It's Women's Empowerment Month!

There are approximately 34 women's colleges in the U.S., which help create gender equality. These colleges provide peer support and mentoring, making a big difference in female student success. According to Proceedings of the National Academy of Sciences of the U.S.A.,

women in STEM education are more successful when they have women as mentors and peers. Read more here: <http://bit.ly/2U8GORv>

Research Your Options

Step 1 to studying in the United States is to research your options. And, lucky for you, the Land of Opportunity is full of them! Use this handy worksheet to help define your priorities. <http://bit.ly/2XsXDsH>

Calculating U.S. Living Expenses

Location, location, location! Depending on where you live and study in the U.S., costs for housing and food may vary greatly. Learn more about the purchasing power of the dollar in every state here: <http://bit.ly/2Uk7O0s>

Opportunities for High School Students in the U.S.A.

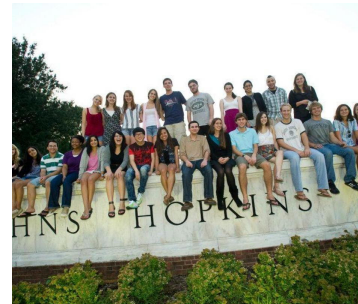

Special Offer from AFS

AFS Hungary is pleased to offer a 500.000 Ft program fee reduction for a limited number of eligible high school students applying for a year-long exchange program in the USA in 2019/20. Take advantage of this unique opportunity! More info: www.afs.hu/aktualis

Johns Hopkins EducationUSA Academy Scholarships

The Johns Hopkins EducationUSA Academy is offering partial need-based institutional scholarships to students who apply by March 20, 2019 (official deadline is the 15th but there is some flexibility). JHU will continue to accept applications after this deadline but will not be offering institutional scholarships after March 20. Any interested students can apply directly to <https://summerprograms.jhu.edu/edusa>
