

Prof. Tamás Csörgő, Physicist,
Hungarian Academy of Sciences

HUNGARIAN FULBRIGHT ALUMNI FOR SCIENCE EDUCATION

Prof. Tamás Csörgő, Physicist, announced the foundation of a national after school science club movement which aims to strengthen education of sciences in high schools all over Hungary. Several Hungarian Fulbright alumni joined Prof. Csörgő in his new initiative.

MEET THE SCIENTIST PROGRAM CONTINUED:

Five Hungarian Fulbright Alumni talked about their scientific field at Hungarian high schools during the past two months.

Topics covered were medicine, biophysics, geology, environmental management, information technology. The highly successful program will continue in the Spring with lectures on cancer research/prevention and physics.

Students at the Andrassy Gyula High School where Prof. Katalin Nagy talked about the history and future of dentistry.

MEETING OF RETURNED HUNGARIAN FULBRIGHTERS

Grantees of AY 2010-2011 talked about their professional and personal experience in the U.S. during their Fulbright grant period.

Lectures will be published on the internet and CD.

Be Hungarian or American, former or present - Fulbrighters are active in Hungary both professionally and socially. Read about their daily and special activities, learn how they fill in their Fulbright mission.

ORIENTATION FOR THE NEW U.S. GRANTEES TO HUNGARY

Grantees arriving for the second semester were greeted by representatives of the U.S. Embassy and the Hungarian Ministry of National Resources during the orientation week in February. They received several useful information on Hungary's higher education, history, culture and political system.

At the end of the week, newcomers and other grantees visited the Library and the Institute of Musicology of the Hungarian Academy of Sciences.

U.S. students at a meeting in the Fulbright office
Students met to prepare for the Student Conference which will be held in May, 2011

EDUCATIO 2011 STUDY FAIR

Fulbright EducationUSA Advising Center at one of the largest study fairs in Hungary. A great number of students interested in studying in the U.S. received information about the educational system of the United States and study and grant possibilities.

INTERCOUNTRY LECTURING PROGRAM

Professor Stuart Loory, Distinguished Fulbright Chair, University of Warsaw Center for Eastern Europe and American Studies was invited to the Eötvös Loránd University in Budapest to give a lecture titled *"The Beginnings of the Dissident Movement in the USSR in the 1960s"*. Prof. Loory's presented at an international conference on *"Show trials, concentration and labour camps, political refugees in Europe before and after World War II"*.

The Fulbright Commission in Hungary hosted four lecturers in the framework of the Intercountry Lecturing program in AY 2010-2011. It is a highly beneficial and significantly cost effective program.
