ST. CATHERINE UNIVERSITY SCHOLARSHIPS FOR UNDERGRADUATE WOMEN

ST. CATHERINE
UNIVERSITY

St. Catherine University is committed to the development of effective, ethical leaders. Through study, practice and life experience, individuals have opportunities to enrich the knowledge, refine the skills and clarify the attitudes essential for responsible action.

St. Catherine University's priority scholarship deadline for female, bachelor's level international students is March 15, 2012. Scholarships are granted to students who apply after March 15, but those scholarships are generally smaller. Interested students should apply online at the link below or by using the Common Application.

Our largest scholarship is approximately \$18,500 per year. We also award on-campus jobs valued at \$2,500 to international students. The remaining expenses could be as low as \$19,500 per year for students who receive one of our highest scholarships. Scholarships are awarded based on academic merit and financial need. Please contact Aimee Thostenson at aethostenson@stkate.edu with any questions or concerns.

RANDOLPH COLLEGE MERIT SCHOLARSHIPS

We're a community of learners and explorers. At Randolph, academic excellence is paramount, but some of our students' most enlightening moments aren't on the syllabus. They come during late-night dorm conversations, or riding the Paris Metro on a semester abroad, or by working side-by-side with a famous professor for a summer research project.

Randolph College offers a number of scholarships, the first and most prestigious being the Presidential Scholars Program. Presidential Scholars have a wide variety of achievements and aspirations. The characteristics they have in common include academic strength, focus, and the desire to be inspired through the process of learning and challenge. They are leaders, scholars, and good citizens. Students are eligible for academic scholarships upon submission of their application for admission. Academic scholarships range from \$2,000 to \$18,000. They're awarded based on a variety of factors, including SAT scores and GPA. These awards are renewed annually based on academic performance. Your application for admission serves as your application for an academic scholarship.

GEORGIA COLLEGE INTERNATIONAL GRADUATE ASSISTANTSHIPS

Georgia College's academically engaging, student-centered programs often take learning beyond the traditional classroom and develop the intellectual, professional, and civic skills and dispositions that enable graduates to thrive in an information-intensive and diverse global society. Through its teaching, research, and service, Georgia College enriches the lives of students and their local and global communities.

Georgia College is happy to announce that 10-15 International Graduate Assistantships will be available for Fall 2012. The International Graduate Assistantship will waive approximately \$13,000 of tuition per year in exchange for 10 hours of work per week. The application for the assistantship is found inside of the international graduate application for admission. Applicants for all graduate programs at Georgia College may apply for the assistantship. The application deadline is April 1st.

RICE UNIVERSITY PRESIDENT'S GRADUATE FELLOWSHIPS

Rice is a first-tier research university in the midst of a vibrant city. It is also an intimate and highly selective college located on a beautiful wooded campus. Compact in size, it has national and international reach and seeks to attract the most talented people by promoting, celebrating, and reaping the benefits of diversity.

The President's Graduate Fellowship Program was established in 2000 to enhance the opportunity to attract the best students to Rice's over thirty graduate programs. These fellowships are for entering graduate students intending to pursue a doctoral degree in the Schools of Engineering, Humanities, Natural Sciences, and Humanities, and graduate degrees in the Schools of Architecture and Music.

IIE INTRODUCES NEW MOBILE SITE RESOURCES FOR INTERNATIONAL STUDENTS

IIE has recently introduced two new mobile site resources for international students. The first is for Funding U.S. Study (FUSS) available at <http://www.fundingusstudy.org/mobile/>. This app provides access to a database of financial aid offered by U.S. institutions. You have the option of typing in the name of the institution, program type, or field of study to find out what opportunities are available!

The second mobile site resource is for Intensive English Study available at <http://www.intensiveenglishusa.org/mobile/>. This app assists you in finding English Intensive Language programs and opportunities.

FAIRLEIGH DICKINSON UNIVERSITY HOSTS FREE VIRTUAL INFORMATION SESSIONS

Attention all prospective Fairleigh Dickinson University students! Learn more about FDU, our programs, scholarships, and application requirements!

The Office of International Admissions is hosting 2 FREE virtual information sessions on March 7 and March 8. The session on March 7 will be for Undergraduate/Bachelors Degree Seeking Students and the session on March 8 will be for Graduate/Masters Degree Seeking Students. These sessions will be hosted by our Associate Director, Ms. Corry Spring. A presentation will be made and there will be a chance for you to ask any questions you may have about applying to and studying at FDU.

Once registered, you will have the chance to invite your friends to the session too. This is definitely a great opportunity for any student who wanted to learn more about FDU directly from an admissions counselor!

CHAPMAN UNIVERSITY OFFERS NEW COMPUTATIONAL SCIENCE PROGRAM

The new Ph.D. in Computational Science program, which comes on the heels of the Master of Science in Computational Science that was launched last year, bolsters Chapman University's commitment to science and technology. Similar to the master's program, the Ph.D. program offers a uniquely interdisciplinary and personalized course of study that provides students with the knowledge and skills to apply modern techniques from mathematics and computer science to solve real-world problems, while emphasizing innovative research and applications of research.

The personalized nature of the program is designed to provide a foundation of basic methodologies and techniques of computational science through a set of core courses, while allowing you to specialize in a shared area of interest with faculty mentors.
